

More inclusion of laity in decision making regarding moral teaching.

FOR ALL GOD'S PEOPLE- THAT WE WOULD ALL TRULY LIVE AS ONE PEOPLE, LIVING A LIFE OF SERVICE.

That the church would listen to the lay people and respond to their needs with understanding.

I pray that going to church will become an occasion to feel welcome with friends and family no matter who we are.

For people to always ask themselves would Jesus Christ be happy with the way I am leading my life?

May we learn to accept each other openly and walk together

There is a wealth of talent within each parish wanting and waiting to be called to action- the Holy Spirit is getting impatient with the pace of the bishops.

No judgements, no isolation,
No division-
No matter what.

That the people who are the church are listened to, that they are respected and that we are understood.

To include everyone; and exclude no- one.

We are one Body
One Body in Christ
And He came that
We might be one.

Love of other people by good example.

Listen to the reflected needs of the laity - and follow Our Lord's example.

That the voices and experiences of the laity be heard loud and clear in our Eucharistic celebrations.
That women be actively involved in decision making .

Listen to the laity and make changes to reflect this.

THAT WE SHOULD- IN THE WORDS OF JESUS- WE SHOULD ALL BE ONE.

That those 'in power' who rely on status for their credibility within the church begin to respect the laity and trust them as intelligent, thinking and compassionate people.

May all God's people be acceptable - just exactly as we are and who we are- God's beloved children.
